Check that the unit has not been damaged during transport

Read all cautions and warnings
prior to operation of this
equipment

Protection Against Fire

1. Maintain a minimum of 2 foot distance from any type of flame.
2. For indoor use only do not expose unit to rain or moisture.
3. Replace fuse only with the specified type and rating.
4. Do not install the unit too close to a heat source.
5. Make sure cables are properly secured
6. Maximum surface operating temperature 130°.

Protection Against Electrical Fire

1. Disconnect power before servicing.
2. For connection to main power supply proceed to page 5.
3. This unit must be earthed. (electronically grounded)
4. This fixture must not be left on for long periods of time.

Protection Against Mechanical Hazards

1. Use secondary safety chain when hanging unit.
2. Use quality clamps or bolts when positioning unit
3. Do not open unit while it is on, risk of electrical shock.

What is Included

1pc Pan T Bot Fixture
1pc Power Con (type) to Nema 5-15 Cable
2pc Quick Connect Clamp Mounts
1pc User Manual

1187-Pan T Bot

Road Case

CAS-1187-2 2 Unit Road Case

Mechanical Specifications

Pan Angle:	540° 8/16 bit
Tilt Angle:	270° 8/16 bit
DMX Connectors:	Panel Mounted 3 and 5-pin XLR connectors in/out
Artnet Connection:	Panel Mounted RJ45 In and Out
Power Connections:	Panel Mounted Power Conn (Type) Power in/out connection. (Nema 5-15 to Power Conn (Type) cable included)
Thermal:	Maximum ambient temperature 104°f Maximum surface temperature 140°f
Display:	Digital
Fastening System:	2 Quick Connect Clamp Mount
Lens Angle:	89° RGB Emitters, 40° White Emitters

Electrical Specifications

LED:	960 RGB 0.5 Watts / 300 White 1 Watt (6670K)
Lumen Output:	28,595lm (All Emitters)
Power Input:	Universal 100 - 240V 50/60 Hz
Color Rendering:	6911K (White Center Emitter Only)
Ballast:	Electronic
Power Consumption:	
Watts:	590W
Amps:	5.04A @110V
RDM:	Yes

Control & Programming

Protocol:	DMX 512
RDM:	Yes
DMX Channels:	2 Modes of Operation

Mode: 23 Ch: Pan, Pan Fine, Tilt , Tilt Fine, Pan and Tilt Speed, Dimmer, Red, Green, Blue, Strobe, Shutter Macro, Macro Speed, Color Macro, Macro Speed, Alpha numeric Display, Background Red, Background Green, Background Blue, White Dimmer, White Strobe, White Macro, Macro Speed, Control

Mode: 256 Ch: Pan, Pan Fine, Tilt , Tilt Fine, Pan and Tilt Speed, Control, RGB X 80, White X 10

Operating Mode:	Stand alone 255 step dimmer setting via display Auto preprogram via display
------------------------	--

Main Power Connection

Caution!

1. Do not connect fixture to a dimmer system.
2. This unit has Auto switching power supply. It will respond to 110V or 240V automatically
3. This unit must be earthed. (electronically grounded)
4. Replace fuse only with the specified type and rating.
5. Power Link max 3 units at 110V and 6 units at 220V.

The occupation of the connection-cable is as follows:

This fixture is equipped with an electronic power supply that will let the unit operate from 100V to 240V from 50Hz to 60Hz

Cable (USA)	Cable (EU)	Pin	110V	220V
Black	Brown	Live	L	L
White	Light Blue	Neutral	N	L
Green	Yellow/Green	Ground		

DMX-512 Connection

The fixture is equipped with 3 & 5 pin XLR cable mounted sockets for DMX input and output. The sockets are wired in parallel. Only use a shielded twisted pair cable designed for RS-485 3 and 5 pin XLR plugs and connectors in order to connect the controller with the fixture or the fixture with another.

DMX—Input

DMX—Output

1. Shield
2. Signal (-)
3. Signal (+)
4. N/A
5. N/A

Caution!

At the last fixture the DMX signal needs to be terminated with a terminator. Solder a 120 Ohm resistor between the (-) and the (+) signal into a 3 or 5 pin XLR plug and plug it in to the last fixture on the signal run. Pre-manufactured terminator plugs are available for purchase from your Mega-Lite dealer (P-DMXT).

Press **Home** button. Use the up/down to select the Settings function press **Enter** to engage. Select from the 5 different setting options.

Artnet	
Display	On
Display Rev	Off
Pan Rev	N
Tilt Rev	N
DMX Fail	BI
Language	

Artnet: Please follow your lighting controllers instruction for artnet connection. As each controller has different procedure for connection. (note: Fixture has a maximum 16 universe setting)

For Mega Control settings please set fixture to this setting:

IP Address
002.168.052.253
SubNet Mask
255.000.000.000
Net 000 Subnet 000
Universe 01

Display: Display **On** will keep the display on for the entire time the fixtures is powered on. Display **Off** will automatically turn off the display if there is no changes after 30sec.

Display Rev: Allows you to select from the 17 preprogram patterns that are built into the fixture. It also allows you to control the speed of those programs from 01 to 99

Pan Rev: Inverts Pan Position

Tilt Rev: Inverts Tilt Position

DMX Fail: This function will allow you to set a default setting if the DMX signal is ever lost or stops working.

Black Out: Will set all channel to 000 and turn light off
Manual: Will go to the set position set on your manual display setting
Auto: Will go to the selected Auto Preset and speed setting set in your auto option
Hold: Will hold last DMX commend until a new command signal is received

Language: Select ether English or Chinese

Rigging the Fixture

Caution!

1. The installations must be carried out by an authorized dealer or trained professional.
2. Unit may cause severe injuries if you have doubts concerning the safety do not install.
3. Unit is to be 24 inches away from flammable materials (decoration material)
4. Use high quality installation equipment to hang unit.

When rigging a unit it is very important that you follow common safety procedures. Rigging requires extensive experience including but not limited to calculating working loads, material being used and periodic safety inspections. If you lack these qualifications, do not attempt the installation yourself, instead use a professional structural rigger.

When rigging the unit always be secured with a secondary safety attachment. The installation location of the projector has got to be built in the way that it can hold 10 times the weight for 1 hour with out any harming. Installation should be checked at least once a year by a skilled person.

Unit can be installed in any of these directions

Cleaning and Maintenance

Installation Maintenance: The operator has to make sure that the unit is operating safely and has the installations and electronics checked by an expert every 2 years.

The following points have to be considered during the inspection:

- 1) All screws used for installing the device or part of the device have to be tightly connected and must not be corroded.
- 2) There must not be any deformations on the housing, fixation and installation spots (ceiling, suspension, trussing).
- 3) The electronic power supply cables must not show any damages, material fatigue (e.g. porous cables) or sediments.
Further instructions depending on the installation spot and usage have to be adhered by a skilled installer and any safety problems have to be removed.

Note: There is no serviceable parts inside the device. Maintenance and service operations are to be carried out by authorized dealers.

Replacing the fuse: When possible only replace the fuse with the same type and rating.

Replacing the power cable: If the power cable of this device becomes damaged, it has to be replaced by authorized dealers or trained professional only.

Should you have further questions , please contact your dealer.

MEGA Systems, Inc. Warranty

MEGA SYSTEMS INC ("MSI") hereby warrants to the original purchaser/owner ("Customer"), MSI products to be free of manufacturing defects in material and workmanship, for the warranty periods as defined below from the original purchase invoice date. This warranty applies exclusively to new MSI branded and/or distributed products listed below, purchased from an MSI AUTHORIZED dealer/ reseller. This warranty is not transferable and may or may not apply to products sold and/or forwarded outside the United States. Please contact MSI for applicable regional product warranty information.

The purchase of MSI product constitutes the Customer's acceptance of all warranty terms and conditions as listed in this limited warranty statement. This warranty provides the Customer with legal rights, which may vary from state to state. Please contact MSI regarding warranty questions prior to purchasing.

Product / Series	Warranty Period	Coverage
Battery Powered LED	Six month battery, one year all other components	1, 2
Moving LED, Hazers	One year	2
Outdoor IP-Rated LED	Two years	3
House Light LED, Decorative LED, Compact LED, iCandy LED, Theatrical LED, Strobe Wash LED, Follow Spot LED, Lighting Control, Direct View LED Displays and Video Control	Three years	4
<p>1. Battery: 183 days/six months</p> <p>2. Parts and Labor: 365 days/one year</p> <p>3. Parts and Labor: 730 days/two years</p> <p>4. Parts and Labor: 1095 days/three years</p>		
<p>This limited warranty excludes any defects caused by, resulting from or relating to the following:</p> <p>Normal wear and tear of lamps, color media, brushes, contact rings, lamp sockets, belts and other parts prone to wear and tear.</p> <p>Misuse, abuse, improper handling, accident, alteration or attempts to repair by or on behalf of the owner or any person not authorized by MSI.</p> <p>Damage to the product resulting from acts of God, including, but not limited to, earthquakes, hurricanes, tornados, lightning and other natural disasters, fire, explosion, flood, riots, civil disorder or any other cause beyond the reasonable control of MSI.</p> <p>Exposure to harsh or excessively corrosive environmental conditions (whether indoors or outdoors), including, but not limited to, extreme temperatures, humidity, atmospheric conditions (including salinity or pressure), radiation (UV, infrared or nuclear), shock and conditions which exceed the product's Ingress Protection ("IP") rating.</p> <p>Use of the product in a manner which exceeds the applicable product specification, including, but not limited to, exposure to excessive, insufficient or other voltage conditions.</p> <p>Installation or use of the product not in accordance with the technical documentation, MSI guidelines (as may be posted on its website at www.megasystemsinc.com from time to time or otherwise designated by MSI or its brands) or applicable building and electrical codes, regulations and standards.</p> <p>Failure to maintain the product in accordance with the technical documentation.</p> <p>Natural degradation and color shift of the LED source over the course of normal product use.</p> <p>Slight deviations in the specified values of intensity and color that do not affect the functionality of the product.</p> <p>Use of the product not for its intended purpose.</p>		

All warranty claims are evaluated under the terms of this limited warranty. If a product falls within the warranty period and if, upon examination by MSI it is found to have failed for a covered cause, MSI will, at its sole discretion, repair or replace the defective part or product or reimburse the purchaser a pro-rated portion of the purchase price based on the percentage of the warranty period still remaining as of the date that the returned product was received by MSI. Should a replacement part or product be discontinued or unavailable, MSI reserves the right, in its sole and absolute discretion, to substitute a comparable replacement part or product for the defective part or product. MSI warranty obligation hereunder is limited solely to the repair or replacement of or reimbursement for the particular parts or products determined by MSI to have failed for a covered cause within the warranty period. In no event shall MSI be responsible to replace or reimburse purchaser for any products or portions of a system that MSI determines has not failed for a covered cause within the warranty period, even if such other products or portions of a system are used together with products being repaired or replaced by MSI under this warranty and the repaired product differs in brightness, colors or any other attribute after the repair.

Costs of removal, shipping to MSI or its authorized representative and reinstallation are solely the responsibility of the purchaser. If MSI determines that the product is covered by this limited warranty, it will only pay for parts and labor as indicated by product type. If MSI determines that the product is not covered by this limited warranty, the purchaser will have the option of paying for the repair (if the product can be repaired) and the purchaser shall be responsible for the cost of shipping the repaired product back to the purchaser. MSI reserves the right, in its sole and absolute discretion, to decline any repair.

IN NO EVENT SHALL MEGA SYSTEMS, INC.
