DRAMA
FS-LED 900

DESCRIPTION

The Drama FS-LED 900 is an extremely powerful follow spot LED fixture. Faders and buttons are located on the included DMX controller. The unit has a color wheel that produces a red, green, yellow, blue, orange and white spotlight.

It features a CTO wheel, used both for adjusting color temperature and the color hue of each primary and secondary color. The diameter of the spot can be easily adjusted with the unit's built-in iris, great for long throw highlighting of small objects on stage.

The Drama FS-LED 900 has a fader for controlling the smooth dimmer. The unit ships with the stand and is compact, allowing for easy transport and use in cramped spaces.

Features.

BRIGHTNESS

The Drama FS-LED 900 is equipped with a 350W COB LED and 3 color temps 4353K, 4997K, 5062K.
