

Obra Flood M180

DESCRIPTION

The Obra Flood N180 is a low profile wash unit that can be used to distribute bright colors evenly across any stage. It's equipped with sixty 3W LEDs, it has nine different colors (red, dark red, fire red, green, aqua, lime, blue, indigo and amber) that can be used to create an assortment of various colors.

It is designed to create a clean wash effect, smooth color mixing transitions and generate vibrant colors that can transform any venue.
