

**DECO**  
VINTAGE SCOOP Q32

# DES CRIP TION

Designed with a traditional vintage look, the DECO Vintage Scoop Q32 features a 32W RGBWW LED. This lightweight fixture is designed with a reflective gold finish that enhances the depth effect on the saturated colors. The 2475K warm white creates a nice warm sunset effect, ideal for theatrical and studio utilization.

Using the double mounting yoke, the unit can be grouped vertically with others to create a grid. This ladder mounting capability is practical and can simplify the ability to create elaborate set ups, allowing this fixture to be used in small to large productions. If desired it can also be placed on a stand and be used individually.

As part of the DECO series, this unit uses Voltage over Ethernet and it is designed to provide versatility with simplicity by being able to connect to a number of DECO Drivers for power and control.

Integrate your next project with the Deco Vintage Scoop Q32.

# Features.

## REVITALIZED LOOK

Designed with a traditional vintage look, the unit features a 32W RGBWW LED. This lightweight fixture is designed with a reflective gold finish that enhances the depth effect on the saturated colors.

## TETRA COLOR

The vivid red, green and blue color hues this fixture projects can transform any room setting. The 2475K warm white can create nice soft tones that can add depth and soften the mood.

## LADDER MOUN

Using the double mounting yoke, the unit can be grouped vertically with others to create a grid. This ladder mounting capability is practical and can simplify the ability to create elaborate set ups, allowing this fixture to be used in small to large productions. If desired it can also be placed on a stand and be used individually

**Classy never goes out of style**

# Specifications.

## Source

---

LED TYPE:	1 COB LED 200W
LED QUANTITY:	90 SMD LED 1.5W
LED WATTAGE:	.25W EACH

## Physical

---

HOUSING MATERIAL:	STEEL
CABLE:	7.2
REFLECTOR ANGLE:	74°

## Effects

---

TETRA COLOR:	RED, GREEN, BLUE, WARM WHITE
COLOR TEMP:	2475K ON WARM WHITE

## Control & Programming

---

DRIVER COMPATIBILITY:	THREE UNITS PER OUTPUT PORT OF DECO DRIVER.
CONTROL:	DMX 512 (WHEN USING DECO DRIVER)
DMX CHANNELS:	2 MODES OF OPERATION

## Electrical & Connections

---

Total Max Power:	32W
Power Input:	24V DC
Power Connection:	Y CABLE MOUNTED RJ45 IN & OUT
Drive Method:	CONSTANT VOLTAGE
Lumen Output:	1107LM (@FULL)

## Rigging:

---

Installation System:	UNIVERSAL MOUNTING CONNECTS TO ELECTRICAL BOX
----------------------	---

## Dimensions:

---

Fixture Size:	22.75" X 14.5" X 25.98"
Fixture Weight:	13 IB
Packaged Size:	28" X 24" X 16"
Packaged Weight:	19 IB
