

EB1

DES CRIP TION

The EB1 features 1 X Appotronics 200W LED that offers a large aperture and one 4 bi-directional colors (+open) that can produce bright colorful combinations. The 10 beam angle creates piercing projections, ideal for mid to large applications. In addition, the moving head provides 48 SMD 3535 LEDs on the outer FX ring. The RGB halo has 16 RGB segments of control that add a unique bright halo effect. The segments can be broken up or used in unison to create a smooth gradient look.

With a compact and lightweight design, the EB1 offers multiple features that allow lighting designers to expand their creativity. It includes 12 fixed + open static gobos and an 8-facet indexing prism that further enhances the beam and gobo effects. In addition, it has a 0.3-20 per second strobe, one frost filter, and linear focus to create a soft or sharp projection. The EB1 is the fixture you need in your lighting tool chest.
