COLOR Q70

# DESCRIPTION

The Baby Color Q70 from Mega-Lite is a bright color-changing fixture that's ultra-compact in size. Equipped with 7 10-watt LEDs and less than a 5" square body, the output of the Baby Color Q70 contends with the output of larger fixtures. The RGBW quad-chip LEDs produce a wide range of colors, including pastel shades.

They also make the face of the LEDs appears uniform in color. The fixture has a 20° beam angle and comes with a diffuser that increases the beam angle to 25°. The Baby Color Q70 is controllable via DMX 512 and has strobe, macro, and dimmer effects. It also has control options audio trigger and master-slave. The Baby Color Q70 has a double mounting yoke so it can be set upon the floor or hang from a structure. It has a digital display designed for ease of use. And, it is equipped with power con in and out and 3-pin XLR connection inputs and outputs.
