

MB1

DESCRIPTION

The MB1 is part of the M series. It is a moving head with a powerful beam. Housing an 80W LED, this compact unit has the ability to project a strong output and long range. It is equipped with an 8-facet circular prism and a 6-facet linear prism that can create a unique aerial effect.

The unit features a diffusion filter, remote focus, fixed gobo wheel, and color wheel that can be used to generate a variety of visual and color combinations.

The MB1 can be used in multiple applications such as mobile DJs, churches, theaters, and even nightclubs.

Features

COLORFUL

The 13 colors and 1 CTO flag allow for fluid color mixing and various color combinations. It also offers 6 multicolor effects.

PRISM

Includes an 8-facet circular prism and a 6-facet linear prism to create a unique aerial effect.

BRIGHT

It is equipped with a powerful 80 Watts LED that can produce bright, powerful, and uniform projection.

Specifications

Mechanical Specifications:

Housing:	ABS Plastic
Power connection:	Powercon type in and out
Signal connection:	5 and 3 pin in and output connectors
Pan:	540° 8/16 BIT
Tilt:	270° 8/16 BIT
Pan and tilt lock:	Yes
Shutter:	Electronic shutter strobe 18 flash/second
Prism 1:	8 Facet circular prism
Prism 2:	6 Facet linear prism
Multi color:	6 Color multi-color effect
Fixed gobo:	9 Fixed gobos + 2 beam reducing gobos
Frost:	Soft frost effect
Color:	13 colors + open
Focus:	Mechanical focus
Lens angle:	.85°
Fastening system:	2 Quick release bi directional clamp mounts

Control systems:

Protocol:	DMX 512
DMX Channels:	2 modos of operation Mode 1: 17 channel mode Mode 2: 20 channel mode
Display:	LCD Display

Electrical Specifications:

Light source:	1 X 80W LED
Color temperature:	10230K
CRI (warm white):	76
Lumen output:	5278 lm
Power supply:	Auto switch 100-240V 50/60 Hz
Power consumption:	210 Watts I 2.94 Amps

Size and Weight:

Fixture size:	11.88" x 9" x 18.5"
Fixture weight:	24 lb
Packaged size:	14.5" x 12.5" x 23"
Packaged weight:	26 lb
