

DRAMA WL 3200

DESCRIPTION

The Drama Work Light 3200K is a low-profile work light solution for large and small theaters. Equipped with 324 White SMD LEDs, it can produce three different brightness settings (33%, 66%, and 100%).

The included barn doors allow the unit to be used for lighting wide and narrow spaces. Designed for ease of use, the Drama WL 3200k has a rotatable knob for quick setup or installation.

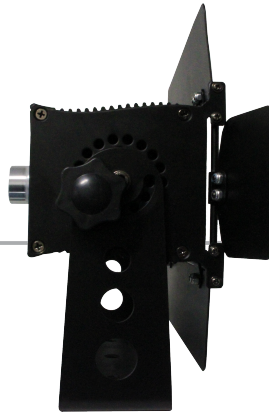

Features

VERSATILE

The compact design and 105° LED angle allows for the Drama WL 3200K to be used in setups or installations.

BARN DOORS

Barn doors are included with the unit to give you more capabilities in directing your light source.

BRIGHTNESS

Equipped with 324 SMD LEDs and a CRI of 91, this work light is very bright. Manually choose 33%, 66%, and 100% brightness to best suit your needs.
